Monstros lendários e épicos são muito difíceis de conseguir e, portanto, a única maneira possível é se você continuar tentando. Nosso gráfico de reprodução (com fotos) abaixo irá guiá-lo e ajudá-lo a obter seus próprios monstros especiais. **Legendary Epic Fire Nature Earth Electric Water Magic Dark Light Metal LEGENDARY Monster Monster Result Monster Fayemelina Darknubis** =>Darkzgul Erpham Drop Elemental =>Goldfield Rabiðex Tartarus =>Thorder Rhyñex Darknubis =>Nemestrinus Skipples Duchess =>Vadamagma Razfeesh Drop Elemental =>Lord Of The Atlantis Musu Terracránk =>Rockatanium EPIC Monster Monster Result Monster Treezard Genie =>Erpham Bloomskids Firekong =>Tartarus Genie Mersnake =>Drop Elemental Genie Beefcake =>Darknubis Electrex Koopigg =>Musu Electrex Vixsun =>Goldcore Pyrook Utochomp =>Pandalf Utochomp Light Sphinx =>Fayemelina Bonbon Pandaken =>Rhyñex Electrex Pandaken =>Rabiðex Utochomp Koopigg =>Razfeesh orFilploch Light Sphinx Pyrook =>Scorchpeg orSkipples Light Sphinx Pyrook =>Duchess orTerracránk FIRE Monster (Common) Monster (Common) Result Monster (Uncommon) Result Monster (Rare) Firesaur Treezard =>Greenasaur orPandaken Firesaur Rockilla =>Firekong orFreetle Firesaur Thunder Eagle =>Gigram orThunderix Firesaur Mersnake =>Sealion orVapwhirl Firesaur Tyrannoking =>Flickie orFiretaur Firesaur Genie =>Pyrook orDjinn Firesaur Metalsaur =>Esmelter orFomax NATURE Monster (Common) Monster (Common) Result Monster (Uncommon) Result Monster (Rare) Treezard Firesaur =>Greenasaur orPandaken Treezard Rockilla =>Raraw orTarzape Treezard Mersnake =>Sheluke orBumblesnout Treezard Tyrannoking =>Utochomp orDendrosaur Treezard Genie =>Bloomskids orPandalf Treezard Light Spirit =>Vixsun orRudicius Treezard Metalsaur =>Jonskeer orCrux EARTH Monster (Common) Monster (Common) Result Monster (Uncommon) Result Monster (Rare) Rockilla Firesaur =>Firekong orFreetle Rockilla Treezard =>Raraw orTarzape Rockilla Thunder Eagle =>Electrex orBonbon Rockilla Mersnake =>Gastosquish orMusu Rockilla Tyrannoking =>Obsidia orBeefcake Rockilla Light Spirit =>Light Spinx orGoldcore Rockilla Metalsaur =>Rockneto orGravoid ELECTRIC Monster (Common) Monster (Common) Result Monster (Uncommon) Result Monster (Rare) Thunder Eagle Firesaur =>Gigram orThunderix Thunder Eagle Rockilla =>Electrex orBonbon Thunder Eagle Mersnake =>Shock Turtle orKoopigg Thunder Eagle Tyrannoking =>Terror Dactyl orShanky Thunder Eagle Genie =>Raydex orSparkwedge Thunder Eagle Light Spirit =>Peltiwirl orPulseprism Thunder Eagle Metalsaur =>Lesaki orGaruda M3 WATER Monster (Common) Monster (Common) Result Monster (Uncommon) Result Monster (Rare) Mersnake Firesaur =>Sealion Mersnake Treezard =>Sheluke orBumblesnout Mersnake Rockilla =>Gastosquish orMusu Mersnake Thunder Eagle =>Shock Turtle orKoopigg Mersnake Genie =>Dolphchamp =>Dolphchamp Mersnake Light Spirit =>Blesstle orRaane Mersnake Metalsaur =>Metanephrops orMetaselach DARK Monster (Common) Monster (Uncommon) Monster Result (Rare) Tyrannoking Firesaur =>Flickie orFiretaur Tyrannoking Treezard =>Utochomp orDendrosaur Tyrannoking Rocka =>Oba Beef or Thunder Eagle =>Terror Doctyl orShanky Tyrannoking Genie =>Giragast orHaze Tyrannoking Light Spirit =>Succuba orFayemelina Tyrannoking Metalsaur =>Omethyst orVortux MAGIC Monster (Common) Monster (Uncommon) Monster Result (Rare) Genie Firesaur =>Pyrook orDjin Genie Treezard =>Bloomskids orPandalf Genie Thunder Eagle =>Raydex orSparkwedge Genie Mersnake =>Dolphchamp orOctocrush Genie Tyrannoking =>Giragast orHaze Genie Light Spirit =>FlawlessZim or Genie Metalsaur =>Manolyth orDommeath LIGHT Monster (Common) Monster (Common) Monster (Rare) Light Spirit Treezard =>Vixsun orRudicius Light Spirit Rockilla =>LightSphinx orGoldcore Light Spirit Thunder Eagle =>Peltiwirl orPulseprism Light Spirit Mersnake =>Blesstle orRaane Light Spirit Tyrannoking =>Succuba or Fayemelina Light Spirit Genie =>Flawless orZim Light Spirit Metalsaur =>Heimdai orAurnia METAL Monster (Common) Monster (Common) Result Monster (Uncommon) Result Monster (Rare) Metalsaur Firesaur =>Esmelter orFomax Metalsaur Treezard =>Jonskeer orCrux Metalsaur Rockilla =>Rockneto or Gravoid Metalsaur Thunder Eagle =>Lesaki or Garuda M3 Metalsaur Mersnake =>Metanephrops orMetaselach Metalsaur Tyrannoking =>Mothyst orVor Genie metalsaur lux =>Manolyth orDommeath Light Spirit =>Heimdai orAurnia View share Comments Share The Breeding Calculator will tell you the results breeding of two monsters together, organized by its probability. Combinations include only permanent playback combinations and do not include any special combination of playback events. This calculator requires Javascript. If you have problems with it, update your browser or try another browser. In addition, some filters may take a minute to load, given the large number of monsters that it must rank. If it appears to freeze, take a minute to finish loading. If it remains frozen, reload the page. The results table can be sorted by any of the columns by simply clicking on them to sort. I've been trying to get acquainted with the game after I've been gone for a while. I'm trying to find an updated playback calculator and is that still something somewhere? I noticed that there have been some changes, like some common monsters that just can't breed now. (Like Water & Dark OR Light & Fire) Why are they opposites or something? The light would not be opposed to the Dark and fire being water? I'm confused.) Is that a new thing? Or has it always been like this and I don't remember? But anyway... Yes. Does anyone know of a Calculator? | last edition edited by JasmineSkunk M Count post: 477 Reputation: 98 United: monster-wikiDOTcom has one as well as monster-legends-breeding-guideDOTcom Edit: No live links allowed. M Post count: 477 Reputation: 98 United: @Frunobulax didn't realize it. I use it really just to look at the Skills to see what to use with my monsters! I have a notebook with more árdes, epic, rare and unusual subtitles on it. The other Playback Calculator I posted works however. MamawJane, Proud Leadership of LEGENDS OF CHRIST! Pole count: 511 Reputation: 283 Subscribed: @JasmineSkunk on what you are looking for. In monsterlegends (dot)with we have playback information for each individual monster (although I'm without the metal monsters at the moment). This doesn't say what you can achieve when creating two monsters, just like getting a particular monster. Get involved with monster legends wiki! And look at my statistics sheet. Post count: 56 Reputation: 21 United: Looks like you're gone for a while, so one thing to know is that all epic playing times are now the same length - 1 day 9 hours without the guardian on. Pole count: 856 Reputation: 408 United: @Tracey-Mill-Toms yes 33 hours is. Post count: 37 Reputation: 7 United: Thanks for the information to everyone. The problem there (as I've posted before) is that there are often many combinations to find useful. For example, if you can A monster creating a legendary with another monster, you'll have a gazillion of entries with all the legendary of that element. Are you talking about the monster-wiki playback combo page? Because that's not what I called. Take, for example, Sheluke - monsterlegends.wikiaDOTcom/wiki/Sheluke. Click this link and scroll down in the playback section. There you do not have every individual combination, possible, but the great categories, organized by percent chance. Also, if you click, say, the water/thunder image, it will take you to a page of all the water/thunder monsters. Edit: Live link removed by forum rules. Get involved with monster legends wiki!
